

Guilds Update - Early January 2026

The server has been updated with exciting new features and is now reopened, we have also merged Greenciff with Terranova to share the same hardware, chat is now combined. To play on Greenciff use /warp command now instead of /server or if you have /home sets there those should still work. Please note you will need to be subscribed to Summers twitch and your discord will need to be linked to play with Summer in GreenCliff.

The world has grown too vast for solitary legends.

Guilds now rise...forged through loyalty, survival, and shared ambition.

It will cost 5 Dragon eggs to create a guild

Plunder: First new Guild Event

Forgotten Soul Update:

It slept through ages of silence.

But when new banners rose and old rituals returned, something stirred beneath the sand.

Faith....even false faith... is enough to wake it.
